CP PROGRAM TRACKING CATEGORIES
Galen 11 October 2013

Church multiplication programs can be viewed as consisting of Oversight, Inputs, Processes and Outcomes. Oversight partners provide inputs that initiate processes which result in outcomes.

Oversight is provided by ministry leaders and their partners, donors and denominational heads. Inputs are provided by partners who seek to stimulate action in the field and change in populations. Processes include those on-going activities that you believe will result in desired outcomes. Outcomes consist of measurable changes in a population.

Whilst every item or activity remains at once an input and an outcome, oversight partners decide on how to classify them. Here is one such classification scheme. Oversight partners work up tracking forms and report formats that supply workers with the timely information that they need.

OVERSIGHT	INPUTS	PROCESSES	OUTCOMES
	Regular		Results
Partner relations	Vision conferences	Map communities	Gospel awareness
Sponsor visits	Organisational structure	Update local plans	Seekers counted
Need assessment	Methods training	Conduct prayer walks	Believers counted
Vision-casting	Strategy planning	Train trainers	Baptisms counted
Program elements	Financial supports	Initiate outreach	Disciples counted
Written agreements	Training materials	Evangelise households	Cells counted
Resource procurement	Personal relations	Make obedient disciples	Churches counted
Reporting requirements	Administrative tasks	Launch new cells	Churches obeying God
Program evaluation	Accounting	Develop new churches	Personnel
	Monitoring	Coach actual leaders	Shepherds named
	Reporting	Write needed materials	Elders appointed
	Special	Submit activity reports	Apprentices named
	Expeditions	Track outcomes	Outreach teams going
	Consultant visits		Trainers in training
	Occasional research
