

WORKSHOP ON MENTORING AND MONITORING IN CHURCH PLANTING  
ETHIOPIA, AUGUST 2010

DESIRED LEARNING OUTCOMES

- Know current monitoring and mentoring practices in CP movements
- Understand the processes of mentoring and monitoring church planting
- Design or strengthen current mentoring and monitoring practices
- Build or improve monitoring tools for immediate implementation
- Lay action plans to implement mentoring and monitoring in the field

PROPOSED TOPICS AND ACTIVITIES

1. Introductions all round
2. Review of attenders' vision, purposes, goals, outcomes to date
3. Review of attenders' current mentoring and monitoring practices and reporting
4. Assessment of attenders' current challenges to mentoring and monitoring practices
5. The place and value of information gathering in church planting movements in various countries
6. Theory of monitoring within planning, implementation, management and evaluation
7. Relation of monitoring to mentoring: continual feed-back for effective training
8. Group discovery from Scripture on apostolic monitoring of church multiplication
9. Schematic approach to relating Income, Input, Output and Outcome targets to CP goals
10. Updating attenders' vision and outcome goals
11. Design a monitoring system adapted to attenders' ministries' needs
12. Build draft monitoring tools for attenders' personnel's use in the field
13. Review basic data analysis and data-based decision making
14. Maps and mapping techniques in planning and in tracking church multiplication
15. Biblical models, examples and instructions for the mentoring of workers
16. Practice mentoring for pastoral training in church multiplication movements
17. Prayers and intercession

**Optional**

- Introduce and demonstrate computer techniques for the compilation and analysis of data
- CPM principles and practices
- Existing materials for mentored training of church planters and shepherds.
